Chicago Commercial Convention.

By Telegraph to the News.

CHICAGO, Nov. 13.—The Commercial Convention assembled this morning, and after preliminary exercises listened to the majority and minority reports from the committee on resolutions. Judge Krum, of Missouri, read the majority report, which urges the completion of the Texas and Northern Pacific Railroads, at an early date. It denounced the extortionate rates of the only trans-continental line now existing, calls for the establishment by the government of steamship lines, and provides for appointment of a committee to present these matters to Congress.

Gov. Anthony, of Kansas, read the minority report, protesting against the adoption of the resolutions looking to government aid for one or more enterprises to the exclusion of others. All should be treated alike.

The Mexican minister Zamacona, being introduced, made a speech predicting that this nation would be the commercial centre of the world. He referred to the growing desire of the Mexicans to secure reciprocal relations in commerce with the United States, and expressed the hope that this desire might find speedy realization, to the advantage of both nations.

A letter from the Secretary of State of Mexico, to Senor Zamacona, was read, giving assurances that Mexico and her President feel deeply gratified for the kindly reception accorded the minister in his efforts to enlarge mutual commercial relations between the United States and Mexico.

The Fishery Award.

By Cable to the News.

LONDON Nov. 13.—The London Times in an editorial, discussing the late correspondence between the U. S. and British governments, says: Mr. Evarts' remarks concerning the unanimity of the award are very weak. If unanimity is necessary condition of the award it would have given each member of the commission power to override the others. The objection that the amount of the reward was more than had been expected, is not valid either in law or morality. But if the commissioners did not confine themselves to the question submitted to them, that would be fatal to the award. Concerning correspondence arising with regard to the New Foundland fishermen, the Times says: It is admitted at once that the conduct of these men is indefensible, but we must demur to the contention of Mr. Evarts that the law of the New Foundland legislature could in no case apply to fishermen coming from the States. Mr Evarts' position is not sustainable. It is said in extenuation of the conduct of the New Foundland fishermen, that they were not the first to take the law into their own hands.

Noyes Rises to Explain.

By Telegrath to the News.

BOSTON, Nov. 13.—In a letter from Paris, Minister Noyes writes in reply to the public charge made by Leverett Saltanstall; as to his (Noyes) complicity in the alleged Florida frauds, that he did not send a single cypher telegram to Secretary Sherman, and that he did not prepare or originate affidavit of some three or four hundred voters. Nor did he promise any office or reward to any member of the Florida returning board, but after it was over he said to both McLin and Cowgill that having honestly done their duty, he would commend them to Hayes.

A Confessed Murderer.

By Telegraph to the News.

CHICAGO, Nov. 13.—A special dispatch from Marshalton, Iowa, says a scene occurred this morning, when Judge Mitchell sentenced Jno. N. Dakin to the penitentiary for life, for the murder of John K. Stough. Dakin solemnly declared his complete innocence of the crime. After Dakin had been convicted by the jury, Frank Ross, an Italian, voluntarily confessed that he committed the murder. Ross is here and asserts that he should suffer. Dakin's attorney will appeal to the Supreme Court.

Virginia Knights Templar.

By Telegraph to the News.

NORFOLK, Va., Nov. 12.—The Grand Commandery of Knights Templar today elected Jas. G. Bain, of Portsmouth, Grand Commander; John F. Regnault, of Richmond, Deputy Grand Commander; Payton S. Coles, of Albemarle, Grand Generalissimo. Richmond was selected as the next place of meeting. The Grand Commandery then adjourned *sine die*.

Government Shops Burned.

By Telegraph to the News

TORONTO, Nov. 13.—The paint shop, saw mill, drying room and shoe-making shop connected with the Central Prison were burned this morning. Loss one hundred thousand dollars. The property belonged to the Ontario Government and was heavily insured.

The French Budget.

By Cable to the News.

PARIS, Nov. 13.—The Budget Committee has reduced the estimated expenditures of the next Budget twenty-five million francs. Estimates for army are five hundred and forty-nine million francs, being an increase of eight and a half millions.

British News.

By Cable to the News.

LONDON, Nov. 13.—Snow storms of exceptional severity for this time of year prevail in north and the north-west of England and throughout Scotland.

Subscriptions to the new Egyptian loan closed yesterday. The Loan was fully subscribed at 73 and the scrip is quoted on the Stock Exchange at 1@1½ per cent premium.

Favoring Ingalls.

By Telegraph to the News.

ST. LOUIS, Nov. 13.—Dispatches from Kansas say the Republican majority on joint ballot in the Legislature is 80. It is said over ninety members favor the re-election of Senator Ingalls.

Swearing a Chinaman.

Los Angelos (Cal,) Herald.

In the county court the trial of the People vs. Ah Chee and Ah Quong, indicted for robbing a Chinawoman of jewelry and other valuables, was begun. The parties to the suit being all Mongolians, it was concluded to swear the witnesses by the most binding Chinese form. As the ceremony consisted of sacrifice both by fire and blood, it was found necessary to adjourn to the side walk in front of the court house. A chicken and the necessary Joss sticks or wooden tapers were procured, and stuck in the ground. While they were burning two wax tapers were lighted, and after being brought in contact with the neck of the chicken, were stuck in the ground. A formidable piece of yellow paper, covered with Chinese characters, was brought out. The document was then tendered to several Chinamen, all of whom refused to read it, one saying in good English that he would not read the paper for a hundred thousand dollars. Finally a Chinaman was found brave enough to undertake the office. He read the dread formula first to the woman, who repeated it as he read. Then a large bundle of paper, previously prepared, was lighted, over which the woman stepped a couple of times, and then took possession of the chicken and sacrificial knife, a cleaver-shaped implement, which had lain by the side of the fire during the reading of the oath. The male witnesses were then arranged in front of the fire, the oath was again read, each repeating it after the reader, who, after he had finished reading it, threw it on the fire. The Chinamen then, one by one stepped over the fire, the head of the chicken was chopped off by the woman and the sacrifice was accomplished.

Death of Mrs. Vance.

Correspondence of the News.

Although she was not personally much known to Eastern North Carolina, her rare qualities and pure woman'y character had stamped her in our minds as eminently fitted to be the wife of our Governor. Every where in our section the feelings of all classes are saddened by the announcement that Mrs. Vance is dead. She was regarded as a woman of great sincerity of heart, instinctively kind, yet firm in discharging her duties, and a most cheerful worker in deeds of charity and christianity. We mingle and sympathise with the sorrows of her family and friends. The best tribute that we can pay to her memory is to think of her virtues and imitate her examble. W.

The Ballots They Used in Boston.

Augusta (Me.) Journal.

We have been shown specimens of the different political tickets cast in Boston at the recent election. They are as large as hand-bills, and one of them as fantastic in device. The Greenback-Labor ticket, with Butler's name at the head, had a good sized picture, containing the seal of Massachusetts, with a laboring man on one side, a soldier on the other, and an eagle overhead. The back of this ticket is in imitation of a greenback note, with part of the platform of the party on it. The straight Democratic, with Abbott's name, has Faneuil Hall, the maid of industry on one side, and on the other, in blue ground, heads of Washington, Jackson, and McClellan. The Republican ticket is pink, striped with red on one side, and bearing cuts of shields on which are the words: "Honest money—honest men." Another ticket, with Butler, has the picture on one side of an angel lying over the world while she speaks through a trumpet. [Only 25,000, she is probably saying.] The other side is green, with an eagle holding the names of "Butler and Arnold."

A Double Death.

The yellow fever proved a swift and sure retribution to H. G. Sexton, who deserted a wife and five children at Rushville, Ind., to elope with Katie Booby, a pretty servant-girl in his family. Sexton's brother is lieutenant-governor of Indiana, and he was formerly connected with his father-in-law's tobacco firm at Cincinnati, but before eloping, he was mean enough to sell the pretty home his wife's father gave her when she was married, and took the money with him. Nothing was known of Sexton's whereabouts for some time, and the first news came from New Orleans announcing the girl's death, quickly followed by his own.

Stagnation of British Trade.

The British social science congress has been investigating the stagnation of industrial enterprises in the United Kingdom. Among the great causes of depression mentioned, were American competition, and the almost entire loss of demand, in this country, for the common cotton and woolen goods, carpets, silks, iron, nails, and the lower grades of steel. Although this state of things is unpleasant for England, it means a decided promotion of prosperity on this side of the Atlantic. We ought to supply, not only our own market, but all the world, with all the products of cotton and iron, and we may fairly compete with any other country in woolen and silk goods.

Radicals Disappointed.

Springfield Republican.

They do say that there are Republican managers who are inclined to swear at the success of their party in holding its own at the elections in Virginia and Florida, and gaining Congressmen in Maryland and North Carolina. Nothing would have pleased them better than to have seen straight Democratic delegations from Delaware through to the Rio Grande, which would have made the campaign cry of a "Solid South" much more affective than when the Republicans maintain their hold in Virginia and Florida and report the gain of two districts in North Carolna.

Queer Ideas.

Dr. Robert Toombs, of Georgia, must be a veritable voluptuary. He proposes that the paper for fine books be saturated with some odorous drug, as it comes out of the vat, so as to impart a flower-like fragrance to the volume. He wants his library to breathe of the "flavors of spices and pressed flowers, instead of printer's ink and leather binding." He also suggests that the letters be printed by blackening the space, so that the letters be white rather than black, or that a "greenish light varnish" be spread over the page, so as to relieve the eye from the glaring white and black.

A World of Wonders.

Washington Post.

In developing a rabbit hole on the hillside at Luray, Page county, Virginia, explorers have struck a veritable underground world of wonders—cavern after cavern, corridors, galleries, amphitheatres of immense extent, extraordinary freaks of nature in fantastic forms assumed by stalactites and stalagmites. All these have been discovered at Luray on a scale that probably has few equals in the world.

Letter From Person.

Correspondence of the News.

ROXBORO, Nov. 12.

The Superior Court is in session, His Honor, Judge Kerr, presiding. State docket, 122 cases, 53 of which were presentments made at spring term; two convictions for larceny, sentence five years in the penitentiary, alias the State's Boarding House for thieves. Many of our best citizens think the restoration of the whipping-post would be the best remedy against stealing, and decidedly more economical than the magnificent ado over sending thieves to he penitentiary. Indeed, that was the divine remedy, embraced in the only code of civil laws ever revealed from Heaven, and what was proper in the time of Moses as a remedy against stealing, is proper now. When human sympathy for criminals leaps beyond the behests of divine wisdom, it is false, and will surely lead to ill results. But few civil causes on the docket, and not a jury case tried during the term.

CROPS, ETC.

Our wheat crop this year was hardly an average, though the grain is of fine quality. The tobacco crop is very good except where it was injured by hail, which embraces perhaps one-fourth of the county. The corn crop is good, also the sweet potato crop. Since the introduction of the yam potatoe, everybody who plants that variety raises as much as he wants. The fruit crop is poor. The lands of Person are as well adapted to making fine tobaccos any in the State.

Take one example; Mr. David Brooks, a few years ago, bought a farm near Roxboro, at the price of $1 800, and the first crop he raised on it, his tobacco brought him over $3,000. So that his land was paid for out of one year's labor, with money over. What he did almost any good tobacco grower can do, provided he is economical. But within the last few years lands have advanced, but they are not yet anything near the prices which the same quality of land brings in other sections well adapted to the growth of fine tobacco.

ROXBORO

is steadily advancing. We have four tobacco factories (plug,) one cigar factory, three dry goods and grocery stores two shops for the manufacture of wagons and buggies, one drug store, three black-smith shops, besides other small business enterprises; and in addition, our enterprising townsman, W. H. Winstead, is putting up a large steam mill for grinding and sawing. But what we need, more than anything else, is a

RAILROAD,

and our people are alive to that interest. Let the Legislature give us a charter, and so arrange convict labor, that it can be utilized and distributed upon the public works of the State, and we will, at the present rate, soon have every railroad in the State that we want. But the present arrangement of hiring out convicts is too parsimonious. Responsible companies should be allowed to take them and use them for the public good; and convict labor should never be put in competition with honest labor. L.

The Largest Farm in the World.

Courier Journal.

Let your readers imagine, if they can, one undivided estate of 50 000 acres, extending twelve miles along the fertile bottom lands of a most beautiful river, and then back into the interior eleven miles more, the whole covering an area of over thirty square miles, and they will acquire some idea of the broad acres ruled by the farmer prince. Of this, 20,000 acres were this year sown in wheat, which has yielded 250,000 bushels. The land is apportion into subdivisions of two thousand acres each, every one of which is presided over by a superintendent, who is under the direction and order of Mr. Dalrymple. He hires what men he requires, and discharges them for cause. Each chief overseer has a very nice house, in most cases handsomely fitted up, and finished in several instances in most excellent taste. Near the superintendent's house is the hands' boarding-house, where all the harvesters board. Back of these buildings are located the granaries and stables, and a little further removed the machine shops, engine-rooms and windmills. To run the farm it requires the services of 450 men and over 300 horses and mules; to keep the accounts three bookkeepers are kept constatly busy, and two cashiers have little time to loaf around during working hours. Water is pumped by windmills several miles back into the interior from the river. Seventy-five Wood's reapers and binders are used in the harvest, and pile up the yellow sheaves at the rate of 1,000 acres per day. During the entire harvest season this year they were retarded only one half day by inclement weather. The grain is separated from the straw by eighteen steam threshers, which put it in the bins at the rate of 1,000 bushels per day.

Dangerous Oils.

N. Y. Herald.

Of the oils used to prevent friction in machinery, many may be classed as dangerous, because when heated to a sufficient degree they throw off an unflammable vapor. In this respect it is claimed some of the animal and vegetable oils are even more hazardous than those which are partially mixed with earth oils, and that the higher price of an oil is by no means a guarantee of its safety. An account was given of a fire last summer in the Bates Mills, Lewiston, Me., at which the flames, on reaching the weaving room, shot across it in all directions on a level about five feet from the floor, and with sufficient heat to melt the lead connections to a gas metre located on the same plane of height—from which the gas had fortunately been shut off—while a towel hanging two feet below this level was not so much as scrached. This seem to show that there was a body of inflammable vapor hanging in the air, cast off by the oil used on the machinery.

Knights Templar of Virginia.

Norfolk Virginian.

The large number of Knights Templar who arrived here Monday night to attend the annual session of Grand Commandery of Virginia, was augmented yesterday. The display is expected to be exceedingly imposing. To-night at the Masonic Temple a full dress reception and a grand promenade concert will take place.

One of the Election Bets.

Charlestown Bunker Hill Times.

One of the most singular bets on the election that we have heard of was made by a couple of gentlemen in this district, and of course was perfected the day after election. The two gentlemen were on a horse car, and got into a rather heated debate on the two prominent candidates for Governor, and the affair waxed warm for some time, or until the conductor told them that he would help them settle the thing between them. He proposed that they make the following arrangement: The one who lost was to go alone to the Phipps-Street burying ground at 12 o'clock at night and get the inscription on the stone, which was mutilated during the war of 1776, and he was to meet his opponent and give him the inscription at 1 o'clock in front of the Waverly House. He was also to leave a gold dollar at the base of the monument erected to Mr. Harvard, which stands in the centre of the ground. This was agreed to by both parties, and we know of its positive and honest fulfillment.

Adam Huber, who visited Germany three months ago, has been tried and convicted there of speaking disrespectfully of the Emperor William, and sentenced to five years imprisonment. He is an American citizen. His case will be brought to the attention of the German government by Secretary Evarts.

Charlotte Fair.

Charlotte Observer, Wednesday.

The crowd on the ground during the day was larger than was expected for the first day. The hotel men report that yesterday's business in their line was larger than on the first day of any fair ever held in Charlotte. Many persons from Lancaster, York, Gaston, Union, Iredell and other neighboring counties came in in wagons, and are camping in and near the city. Up to 4 o'clock in the afternoon the Secretary had made three hundred and fifty entries. This number will be largely augumented during the day, but even now some of the departments are better represented than ever before. Conspicious among these are the fruit and vegetable and the machinery departments, both of which in variety and quality are remarkable. The stock and fowl departments are also first rate. The other departments are rapidly filling up, and will make a higly creditable show to day.

Yesterday being the first day, the only special feature outside the exhibition proper was the glass ball shooting. Each contestant had ten shots and the entries were as follows: Col. H. C. Jones, Capt. S. S. Pegram, Messrs. Walter Brem, W. P. Myers and H. Watts, of Charlotte; Hon. Walter L. Steele and Col. T. C. Leak, of Richmond county; Capt. J. C. A. Branan, of Atlanta. The score stood as follows: Jones, 5; Steele, 5; Pegram, 4; Watts, 3; Leak, 6; Brem, 5; Branan, 8; Myers, 2. Capt Branan was declared winner and carried off the prize, a breech-loading bird gun. There will be another glass ball contest to-day.

A Society for the Manufacture of Public Opinion.

Washington Herald.

It is well known here in Washington, though it does not appear to be so well known outside, that there are numerous confidence games practiced by lobbyists and sharpers here. Among the catch-penny strategies is one of pretending to manufacture public opinion through access to the press of the country. Such a concern now blossoms out under the high-sounding title of the "Washington News Association," of which J. H. Bartlett is the manager. Its present business is to furnish volunteer letters to the Southern press, advocating Col. Scott's Texas Pacific subsidy scheme, on the plan of getting so much pay for so many as get printed. Of course reputable papers have their own correspondents here, and the editor who is misled into publishing this subsidy rubbish is being used while Bartlett and company take the pay.

Effect of Compulsory Education

Washington Post.

The commissioner of education has just received the official report on education in England and Wales. The increase in school attendance has so much increased during the last few years that the committee of council on education actually under by-laws amounts to 13,517,585, and will shortly amount to more than 15 000,000. The compulsory attendance at school is now the law for sixty per cent. of the whole population of English and Wales, and for about ninety per cent. of the whole borough population. The average daily attendance has increased from 1,225,764 in 1870, to 2,208,468 in 1877.

Late News from Mexico.

Washington Post.

The steamer City of New York from Vera Cruz, brings the following news from Mexico: Mexico will send delegates to the Commercial Convention at New Orleans. The party of Chicago merchants are expected with considerable interest. President Diaz and Gen. Gonzales, with other leading chiefs, who are in favor of the present constitution, are constantly assailed by the revolutionists. These attacks only serve to strengthen President Diaz in the estimation of the Mexicans. The supporters of the proposal for the prolongation of President Diaz's term for two years are increasing. The revolutionary element in the Tamaulipas has been completely obliterated.

Ingersoll on the Presidency.

Philadelphia Herald.

Colonel Bob Ingersoll has heard enough about the late elections to make up his mind with his customary emphasis, that the next President will be a Republican; not Grant, because his ideas of individual rights are not broad enough, but Blaine, most likely, "who is an honest, outspoken man and the choice of the masses of the party." Should Col. Ingersoll get up in the next National Republican Convention and nominate Blaine with his eloquence as at Cincinnati, he will no doubt find more of the delegates at his back than then.

A Distinguished Visitor.

Salisbury Watchman.

We record the presence in this old burgh of a distinguished visitor in the person of Sir George Campbell, a Scotch member of the British Parliament, and for many years a Governor of one of the East India Presidencies. He is the guest of Mr. William Murdoch, himself a Scotchman. Sir George is travelling for information. He was much surprised and pleased at the conduct of the election, which he witnessed, and was struck by the harmony which seemed to prevail between the whites and blacks.

The Total Contributions.

New York Mail.

One million three hundred and fifty-nine thousand dollars is the total public subscription to aid the yellow fever sufferers in the South. Of this amount $395,000 was contributed by and through New York city, and $39,000 came from foreign sources. From this total are excluded all private, religious, and society subscriptions, and it embraces only the cash subscribed publicly and through the authorities of the various cities and committees appointed by them. And yet people are wont to say this is a cold, uncharitable world.

The Young Man from the Country.

San Francisco Chronicle.

On Sunday afternoon a bob-tail car of the "City" Line, going Missionward, was crowded. A pretty and fashionably attired young lady boarded the conveyance, but looked a little disappointed on discovering that she would be compelled to stand. Grasping a hand-strap, she threw a wistful glance around her. One of the occupants of the seats was a young man from the interior, and he surrendered his seat to the last arrival. An instant after she had settled herself in her seat and shaken out the folds of her elegant dress, she took a half dime from her purse and passed it to the young man that he might drop it into the fare-box. He, however, was not versed in the practices of metropolitan street railways, his own fare having been paid by a city friend who was with him. Thinking the money was offered him as the price of his seat, he quietly put it in his pocket, unobserved by the lady, but to the great amusement of those of the passengers who witnessed the transfer. Conscious that a fare was lacking, the lynx-eyed driver, after ringing the box-bell several times to no effect, opened the door and demanded the missing ticket or a half dime. A malicious urchin, on mischief intent, spoke out and accused the unconscious countrymen of stealing the money given him by ladies to put into the box. This so exasperated the now bewildered youth that he at once knocked down the impertinent speaker. The boy's mother, a nervous dame of 50 years, swooned away; a timid citizen by her side blew a police whistle; the driver stoped the car. A scene of wild confusion and tumult ensued until the arrival of an officer, who was about to take the rustic into custody, when the young lady who had been the indirect cause of all the trouble made an explanation, the countryman made an apology, the saucy lad recovered, the nervous mother was conveyed to an adjacent drug store, the timid gentleman alighted, the officer disappeared, and the car resumed its way as though nothing had happened.

The Man for the Post.

Iredell Gazette.

The time when we shall see what kind of material our next Legislature is composed, is drawing nigh. The Legislature can now only remain in session sixty days, and they are expected to accomplish much in that length of time. The people of South Iredell will expect that body to give them a fence and dog law. Will it do so?

The people of this county also desire Z. B. Vance to be their next United States Senator. Will they get their wish? Much has been said in the papers about the tax on drummers. We do not believe it advisable, nor that the people desire a higher tax on drummers, than the present one. The present tax brings more revenue to the State than even a higher tax would. Let the people have what they want.

Firing Up the Machine.

Philadelphia Times.

At the meeting of the Cabinet the other day the only thing considered was the late elections, and the administration was as happy over the result as though it had received an invitation to a country fair. The President felt certain that there would be no difference within the Republican party in 1880, but for that matter there is none now that anybody can see without the aid of a microscope. Everybody agrees that reform under Hayes is an ignominious failure and that the machine is as powerful now as it was before the President made his feeble attempt to to smash it. Everthing is lovely, because, the party refusing to surrender to Hayes, he has surrendered to the party. All hands will be around to cheer and help along when the machine is fired up for the next Presidential campaign.

How to Treat the Indians.

N. Y. Mail.

The main point which Gen. Sheridan makes is the most important one for present consideration, as it may prove the only one now possible to act upon. He believes that a steady and just system of kind treatment would prevent Indian hostilities, but he long ago expressed his opinion that we have gone so far in ill-treating them that they will no longer trust apparent kindness. The fact is, the government and its employees have persistently wronged the Indians by taking away their land, confining them to reservations, making them ill by changing their mode of life, not providing them with sufficient food and clothing when they had deprived them of the means of obtaining them, and carrying disease and immorality among them. "It was for this and against this they made war," says General Sheridan. "Could any one expect less? Then, why wonder at Indian difficulties?"

A Specimen Cincinnati Stomach.

Washington Post

Geo. Phillips, a married man, was found dead in bed at his home in Chicago. At the inquest yesterday the coroner, from the testimony produced, was unable to arrive at the cause of death. A post mortem examination was ordered and made this morning, when Dr. Schneider found that the stomach of the deceased contained one half gallon of whiskey and four large oysters. The man wanted to vomit, but the oysters acted as a valve and prevented an emission of the stomach's contents. This caused paralysis of the heart, resulting in the man's death.

Nomenclature of Military Posts.

Washington Post.

The War Department has ordered that as the practice of designating military posts varies in the several military divisions, in order to secure uniformity in this respect division commanders are authorized, at their discretion, to name and style all posts permanently occupied by troops, or the occupation of which is likely to be permanent, "Forts," and all points temporarily occupied "camps."

What Shere Ali Looks Like.

Shere Ali, the Emir of Cabul, is represented in the pictorials as a good looking man under forty. He is really sixty-five, with long gray beard, white eyebrows, a large hooked nose and broad shoulders. His face is of a Jewish type. He is short in statue, and in addition to his Astrachan hat wears a green silk waistcoat and a brown cloak embroidered with gold. His trousers are white, and his boots of patent leather.

A bright little Shoreham boy, who had been engaged in combat with another boy, was reproved by his aunt, who told him he ought always to wait until the other boy "pitched upon" him. "Well," explained the little hero, "but if I wait for the other boy to begin, I'm 'fraid there won't be any fight!"

EVENTS IN THE STATE.

BEAUFORT.—Washington Press: The Washington Light Infantry were out last Wednesday evening on parade and inspection.——The large three masted Schooner Caroline sailed on last Thursday for the West Indies with full cargo of shingles and staves.——The port of Washington now has three large fine schooners engaged reguiarly in the West India trade, besides others that make occasional trips.——Jim Williams, on foot all the way from Lenoir county, put in an appearance here on Tuesday in search of a fugitive and faithful wife.——On Saturday night last a daring attempt was made to fire the store of Mr. Sam'l Rund by Sam Brown, a deaf and dumb negro. He has been put in jail.

CRAVEN.—Nutshell: Oysters are again scarce. In fact, from some cause unknown, there have been but few oysters brought to market this season compared to the amount which usually come.

GRANVILLE.—Torchlight: The present Board of Commissioners has paid $2,265 in lawyers' fees in the past twelve months.——The new crop of tobacco is selling well. New brights are already in active demand.——Stephen Hughes, of the Revenue Department, discovered in an old barn of T. C. Fuller 171 boxes of unstamped manufactured tobacco.

IREDELL.—Charlotte Observer: The case of George Pethel, for wife poisoning, came up in Iredell Superior Court, at Statesville, Tuesday, and upon affidavit of counsel was moved to Mecklenburg.

MECKLENBURG.—Charlotte Observer: Mrs. McPherson, the Quaker revivalist who recently converted so many railroad men at Company Shops, is coming to Charlotte shortly.——The ladies of the Baptist church are already preparing for the holidays, what they say will be the grandest church exposition ever seen in Charlotte.——The Statesville band wagon attracted a great deal of attention on the streets and is much admired. It is a boss band which rides in it, too.——The Inferior court meets next week. The docket promises to be pretty heavy.——A delightful German was given Tuesday night by the Assembly in honor of the visitors to the fair.——Whit Ferron, a negro horse thief, was neatly captured Tuesday, and lodged in jail.——A day or two ago, Calvin Harris, a man considerably advanced in years, was attacked by James McCall and his son Jake, who beat him with rocks and sticks over the head and body, tore out part of his hair, bit off one of his thumbs, a ear, and his nose, and left him on the road-side, supposing him dead.

NEW HANOVER.—Review: The last thunder storm of the season occurred Monday night.——Friday evening last the Campbell Square School House was broken open and quite a number of books were taken therefrom. This is the second instance within a few days of the robbery of a school house.——Star: The Spanish brig *Dos Cunados*, of Bilboa, of 272 tons burthen, was sold at auction Tuesday, under the direction and inspection of F. J. Lord, Esq., Spanish Vice Consul, and was bid off by Messrs Cassidey & Ross, of the Marine Railway, for $1,000.——Dr. E. A. Wright has had another attack of paralysis.——Sun: Star gazers last night noticed several very brilliant meteors.——Politics are so quiet now, that a stranger in our midst would imagine that we have not had an election for a century.

RANDOLPH.—Regulator: The Commissioners have apportioned the school funds. Each school subject get 90 cents. Total number whites 5968. Colored 1044.

RUTHERFORD.—Charlotte Observer: Last Saturday night at Rutherfordton, a negro and a white man got into a drunken quarrel, when a white man drew a pistol and fired, the ball entering the negro's bowels and lodging.

WAYNE.—Goldsboro Messenger: Bishop Keane will preach in Goldsboro on Friday.

How Wade Hampton Talks to the Colored Men.

"Your race is but a small fraction of the people in these United States. You are but four millions against forty millions of whites. You are but a tenth part of the great mass of the people of America—and, moreover, that race of white men who are now treading this continent, are the most earnest, and most enterprising, the most active, the most aggressive of all the people that ever walked upon God's earth. If any other race places itself in opposition, it must give way before the advancing tide, and die out as the Indians have done, while the white men will go on bearing the flag of civilization and Christianity until the last trump shall sound from Heaven. It is the law of God; it is as fixed as the law which fixed that sun in the firmament. It will not be changed, and I say to the colored people of South Carolina that if they array themselves against the white men as a race, if they draw the color line which I have been trying to obliterate—if they say, because we are black, we intend to be Republicans always—I beg you to mark that I have not made a prediction since 1876 which has not been fulfilled to the very letter—I tell you here to day that if you place yourselves in this attitude toward the white race, as long as the seas beat upon your shores, never will you have control over South Carolina."

Georgia Solidity Breaking.

Atlanta Correspondence Chicago Tribune.

Georgia was the last State to make up the solid South, and, mark it, she will be the first to break it. This election is the most remarkable in the history of the State. Felton, in the 7th district, has beaten the whole organized democracy of the entire State combined by 1500 majority, and is that sure to be elected governor next election, independent, by an increased majority. All other democratic nominees are elected where there is a contest except in the 9th district. In this, if Speer, the independent, is not elected by 200 majority, as it seems he is from present returns, the solidity is broken, and, next time, any, even a straight republican, can be elected. The 9th district is the only one in doubt.

DAILY NEWS

THURSDAY,.....NOVEMBER, 14, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

The fact that the South is "solidly democratic" is creditable to the democratic party and to the South itself. For about seven years the Republican party had undisputed control over a dozen Southern States. Can Republican papers name seven honest Republican officers—white men—among those who in the time of Republican power held leading positions in these States? They will find the task impossible. The South is opposed to the Republican party for as good reasons as those which have made Bulgaria hostile to Turkey.

In discussing the contingency of a presidential election by the House of Representatives, several papers seem to be under the impression that States which are equally divided or by some other circumstance prevented from casting their votes, are not counted in determining the majority. This is a mistake. The constitution requires a majority of all the States and, with the present number of States, a president cannot possibly be elected in the House by less than twenty State delegations. If, therefore, a party has less than twenty votes it cannot succeed in the House, though it may have more votes than its opponents. The constitution has provided against a dead-lock by ordaining that "if the House of Representatives shall not choose a president, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the vice-president shall act as president as in the case of the death or other constitutional disability of the president."

Party Reform Needed.

Under the above caption the Wilmington Review contains the following:

The Raleigh Observer draws a moral from the results of the recent elections which may be of use to us hereafter if we will only consent to apply it. It submits the three following indisputable propositions:

"1. That a caucus of the Democratic members will be held to select a Democratic candidate for every office that has to be filled by the next Legislature.

2. That all the Democratic members will go into the caucus for that purpose and that all will support the decision of the caucus by their ballots in the Legislature.

3. That no Democrat in caucus will vote for any man as a Democratic nominee who does not acknowledge the right of the caucus to pass on his claims.

Had these simple principles, constituting, as they do, the very essence of Democratic organization, been regarded, Waddell and Yeates, and not Russell and Martin, would now be members elect of the next Congress."

We don't know of anything better wherewith to strike at the cursed evil of independentism in this State than the timely suggestions made by the Observer. It must be the undertaking of the newspapers, however, to imbue the minds of the people with these sentiments. Let them take the course of events in their own hands. Let the Observer lead on its own suggestion and the others will follow. Let it call upon the candidates for office—taking the highest office first—at the hands of the next Legislature, and demand of them that they subscribe to these sentiments and will pledge themselves to abide by the decisions of the Democratic caucus. If they consent to do so, simply let the people know of the fact; if they do not respond, or refuse to go into caucus, or refuse to abide by its action, then make instant war upon them—treat them as enemies to the Democratic party, as traitors to the very principles they profess to support, as somebodies outside of and beyond the pale of Democratic recognition and support. These may seem harsh terms, but the times demand harsh measures. If we would heal the body politic it is time to use the knife—to cut off a hand, or a foot, or to pluck out an eye, if need be, to preserve the whole from corruption and defect. We would rejoice to see such a paper as the Observer take the initiative in this needed purifying of the party.

Depravity of Radical Politics.

In their support of Hon. Josiah Turner for Congress, the Republican leaders and their followers who endorsed him in this District proclaimed the total depravity of their politics and abandoned themselves to a complete surrender of their self-respect.

A politics which rises no higher than a mere sentiment, which has no foundation in public morals, guided and guarded by no sense of self respect residing in its adherents, is necessarily very low, mischievous and depraved, without a single motive elevated or pure aim or object above selfish corruption, and deserves to be spit upon, scorned and shunned by decency and all men who love truth and honor.

The Democracy of this District have no cause to regret, in its results, the action of those Republican leaders who threw the weight of their party in behalf of the candidacy of Mr. Turner. When that erratic individual, fresh from his Legislative victory in Orange, intoxicated by a majority which neither himself nor the public anticipated, declared himself an independent candidate for Congress, he seriously menaced the Democracy of the District, for such candidacy, as every reflecting mind knew, put it in the power of the Republicans to elect a Congressman of their own; but as soon as Mr. Turner received the endorsement of the Radical leaders, and so because the candidate of that party, all danger to the Democratic nominee passed away, and his supporters breathed easier. Therefore, it is, so far as results are concerned, that Democrats have to thank the Radical manipulators for their characteristic trickery and strategy.

But in respect to public morals and that decency of conduct which ought always to regulate the action of men under our political institutions, it was a prostitution of such low order of degradation as that men may well tremble for the public welfare, State and national safety when such men and such a party influence and control the public destinies. A long and ponderous catalogue of outrage and crime does not more effectually proclaim the moral turpitude of the Radical party than the late action of its leaders in this district illustrates.

A very lamentable feature of this business was that it was the influence and work of leading United States officials and other public servants, men who by the pretence and mock morality of a psalm-singing administration of political eunuchs and humble Uriah Heeps, were forbidden the prostitution of their political characters to the base conduct of political scavengers, and were not allowed, by the terms of a presidential edict, to exert themselves and the influence of their positions to the work of corrupting and controlling the sentiments of the people of any party; were not called upon to galvanize into life the political corpse of an enemy to the State, the people of his country and mankind in general; and had not selfish ambition born of the morbid desire to perpetuate hold on place and power, Mr. Turner had not received the endorsement of the Radical Rump Committee of substitutes and strikers that assembled in this city during the early days of September.

In the interest of the public welfare and of good government, it is respectfully suggested to the authorities at Washington to inquire into the motives and conduct of some of their trusted agents in these parts, and when dolefully casting about for a majority in Congress, it may be worth the while of Republican managers to ascertain if certain of their influential official servants down this way had not a motive to so manipulate the strength of their party as to produce precisely the result recorded of this district in Congress.

Nuisances, in the shape of public officials who corrupt the people, ought always to be abated. As there is no hope of any good or proper thing for its own sake, from Washington, interested motives, however base, may, sometimes, in case like this, operate to the public good and the honor of the public service.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN.

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.
COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled
1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

FACTS.

EXAMINE any Green or Japan Tea, and you will find the color will rub off, and if you break a grain, you will see inside the true color of the tea.

R. SHOP MARVIN wrote from China; "You can get no respectable Chinaman to drink tea after it has been doctored for the Foreign Market."

UNITED STATES, The department of Agriculture at Washington, in a special Tea Report, says:

"The Chinese never drink the dyed teas themselves, they are made for the Foreign market."

APPLETONS CYCLOPEDIA, page, 60), says: "Teas are subject to various adulterations, including the coloring to improve the looks of inferior kinds. The materials used are Prussian Blue, Gypsum and Indigo. There is but little un-colored green tea offered for sale.

Messrs MARTIN GILLET & Co.; with a reputation of over half a century, and in close connection with the markets of China and Japan; Recognizing the truth or the above abuses, have lately introduced He-No Tea. It is selected from the choicest leaf, and is without the expensive coloring, polishing and fancy twisting usually put on teas shipped to America. In this way a fine pure tea like He-No can be sold at moderate price.

HE-NO is Tea in its natural condition, such as the Chinese themselves drink, and for the following good reasons, is sold only in original pound and half-pound packages.

It is the most convenient and economical style of package.

It is weighed and packed where it can be done cheapest and best.

It can be easily identified by the consumer.

It keeps the Tea better.

It prevents Adulteration in America.

We are the sole agents for this TEA in Raleigh N. C., and ask our friends to give it a trial. And if not perfectly satisfactory we will CHEERFULLY take it back and refund the money.

Lever Feed Cutter,

Something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used is cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some Scrofulous affection on the heel. He had been to the Hot Springs to Arkansas, and from there he went to Hittrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. — wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless us se old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL, hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

T. J. STOKES.

Louisburg, N. C., May 22, '73.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,

Respectfully your friend,

MRS. E. L. BROWN.

Sept. 26 1878,

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS. JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

JOHN BUIE, Box 141, Fayetteville, N. C.

For my personal reliability, I refer, by permission to Rt. Rev. Thos. Atkinson, D. D., North Carolina; Geo. A. Foote, M. D., Warren, Co.; Hons. J. J. Davis and C. M. Cooke, Franklin Co.

A Gleam of Light.

Gov. Vance received a letter yesterday from Hon. Jesse J. Yeates, democratic candidate for Congress from the First District, stating that Martin's majority had been reduced to thirty-nine votes, and that he would be able to show fraud practiced on the part of Martin and his friends, sufficient to overcome Martin's alleged majority.

They Deserve Thanks.

Under the new schedule the mail comes in at a late hour on the R. & G. railway, but the post office clerks open it at 9½ o'clock. For this they deserve and have the thanks of the business public, to whom it proves a great convenience. It is but another instance of their regard for the public.

The Raleigh and Gaston Railroad.

The accommodation train of the R. & G. R. R., which leaves Raleigh at 7½ p. m., makes close connection at Weldon with the Northern bound passenger trains; thus giving two daily passenger trains from this city. See schedule.

Returns of Election.

No official returns were received from Little River Township in the late Congressional election. The law fixes a heavy penalty upon persons failing to so make returns. It is reported that the matter will be brought to the attention of the grand jury, as one needing special attention.

Windmills.

The theorist comes forward now and says that the most perfect and economical means of securing a water supply is the use of windmills and tanks. Would it not be a good idea for the county authorities to erect one at the county courthouse, which would furnish water for the building and for public use.

The State Board of Canvassers

The Board of Canvassers of the votes cast for Congressmen in the recent election consists of His Excellency Gov. Vance, the Secretary of State, the Attorney General, and Messrs. Waddell, of Johnson, and Everett, of Forsythe, members of the State Senate. The Board has to make declaration of those elected by the third Monday succeeding the election. It will therefore meet at the Capitol on the 25th instant.

Abstracts of Taxes.

The State Auditor yesterday received the following abstracts of listed taxables:

Cleaveland county, by R. J. Durham, Register of Deeds:

General taxes,	$ 2,163 71
Special "	2,212.88
School "	3,492.28
County "	22,778.32

Madison county, by Elihu Rector, Register of Deeds:

General taxes,	$ 689.12
Special "	704 89
School "	1,967.49
County "	2,577 60

The Circus.

The city will be thoroughly alive today, and, shaking off any lethargy, business, or social, will devote itself to the pleasures of witnessing the street parade of the circus in the morning, and the exhibition of the animals in the evening. The usual sight of seven able bodied citizens with one female, whom they accompany as protectors, will be for the thousandth time seen. The parade bids fair to be quite a display, and the streets will be filled with lookers on. Numbers of visitors will be here, as a train on the R. & G. R. R. is expected to bring about a thousand.

Criminal Court.

Court met at 10 o'clock a. m., yesterday. The following cases were disposed of:

State vs. Charles Howard, John Cayton, Paul Allen and Wm. Riggsbee, affray; submissions. Judgment, $5 fine each and costs.

State vs. John Cayton (two cases,) assault and battery; submission. Judgment, 1 penny and costs in each case.

State vs. Handy Whitaker, larceny. Nol. pros'd.

State vs. Martin Mott, disorderly house. Verdict, not guilty.

State vs. J. T. Davis and Wm. H. Lassiter, affray. Verdict, guilty as to Davis, not guilty as to Lassiter.

New Mills.

The old mill on Rocky Branch, on the Fayetteville road, has for some years stood vacant and idle. The structure was venerable, having once been the site of a foundry of Mr. Burns, the place where the castings for the fence of the capitol square were made. The mill is the property of Maj. R. S. Tucker, and he, with characteristic enterprise, has made it wear a different look. The buildings have been rebuilt. One now contains the finest cotton ginning apparatus in this section. Although but a few weeks finished, nearly a hundred bags of cotton have been ginned. In another building are the grist mills, all in the most convenient and improved style. The meal is pronounced of a superior quality. In the spring an addition on of a wool carding machine will be made. This will turn out 30 inch rolls, and will be fitted with burr picker and cylinder. It is a pleasure to note such improvements, and when one thinks of the undeveloped water power near the city, the hope rises that it will soon be utilized also.

New York's Illegal Voters.

The election was a lively one in the New York courts. One thousand persons crowded the judicial halls, brought there by voting illegally. Being strong in numbers the illegal voters reared for a trial and said they hadn't committed any offense. The majority of the prisoners were charged with registering and attempting to vote on the strength of fraudulent naturalization papers issued in 1868. The total number of warants issued was four thousand.

Parties wishing tombstones of any description will find it their interest to to call and examine Mr. John Cayton's large and varied selection. He will sell at cost for the next thirty days. Now is the time to secure bargains. Marble yard just below Harps carriage factory *

Delightful Beverages.

The ales, porter and lager beer, bottled by M. Bill, and delivered daily in all parts of the city, are unexcelled for purity and briskness. It is the universal opinion that as a tonic or as a beverage his ales etc. have no superior. The prices are unusually low, and perfect satisfaction is guaranteed. Strongly recommended by the medical profession. *

The National Hotel.

By some means unknown, a report has been given circulation that this fine house would speedily be closed. Never was there a rumor more utterly unfounded. The hotel will continue to be, as it has been, first class in its accommodations and living. The traveling public are asked to test the truth of this, and will always receive a ready welcome. *

Our Buyer.

It is very difficult for a merchant to make a trip to New York, buy goods cheap, and return immediately. For this reason Law's China and Silverware establishment (Raleigh and Charlotte, N. C.) has a buyer constantly on hand in New York picking up crockery, glassware, or anything in their line cheaper than regular prices. Greater inducements are offered now in sterling silver plate than ever before. *

Sacramental Wine.

Quite a Mistake.

We said in yesterday's paper that "all the grocers in town say their customers will not use any other Baking Powder but Jones' Unrivalled." This was quite a mistake, as the Patapsco Baking Powder has a great reputation here, and nearly every grocer in town keeps it in stock, and the demand for it is daily increasing. A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

Boots and Shoes.

Messrs. Cooke & Wainwright have just received a large stock of Boots & Shoes, which they will sell cheap. They also keep the Tennessee wagon. Something New.

Lumsden has a grocers' scoop that is made of extra heavy tin and has an iron handle to it, with a sharp point for breaking and loosening sugar, etc., when it becomes hard in the barrel. The handle itself weighs 17 ounces and is tinned over, soldered and riveted to the scoop so there is no possible way of breaking it. Merchants and grocers everywhere would do well to see this scoop before buying another Also full stock of house furnishing goods of all kinds at Lumsdens.

83 MAIN STREET,

NORFOLK, Va.

I respectfully ask the attention of Dealers and Consumers to our "Tivoli Lager Beer," put up in Patent stopped bottles. Having made a speciality of bottling this Beer, which is brewed by us expressly for export trade, and which received the Prize Medal at the late Richmond, Va., State Fair "for general excellence" and which has no superior in this or any other market.

I hereby tender my thanks to the citizens of North Carolina who have so liberally patronized me, and ask for a continuance of their patronage.

Lumber! Lumber!!

IN ANY QUANTITY FROM

ELLINGTON'S SAW MILLS,

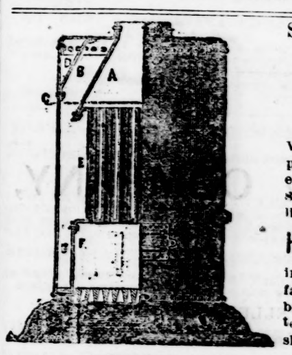
Having every Facility for the Manufacture of any Grade of

ROUGH PINE LUMBER,

am prepared to fill all orders promptly and satisfactorily—both as to quality and price. With 13 years experience in the business, I have acquired a thorough knowledge of the management of lumber and can always furnish a grade fully up to the standard I represent. My capacity for turning out work is as great as any saw mill in the State and with fair notice I can supply orders to the extent of about 10,000 feet a day. Prices as low for cash as can be had elsewhere. Estimates furnished on application. Soliciting the further favor of my old patrons and hoping to make many new ones.

Very Respectfully,

J. McC. ELLINGTON, Apex, N. C.



STEAM

BOILERS.

I have fitted up a first class STEAM BOILER WORKS—at the foot of Martin Street. I am prepared to engage extensively in the manufacture of every description of Steam Boilers, Tanks, Smoke Stacks, park Arresters and all kinds repairing and light and heavy forging.

Having Made over 100 Boilers

in this State, all of which have given satisfaction, I can refer with pleasure to my work as the best guarantee of my reliability. All work submitted to thorough test and warranted before leaving shops. Estimates furnished on application.
